PETROL PRE-EMISSION TEST TREATMENT

Fast acting treatment

Wynn's Petrol Pre-Emission Test Treatment is a strong, specially formulated treatment to meet new emission testing regulations. Containing 4 specific emission reduction elements, cleaning through the entire fuel system with a highly concentrated formula to restore combustion efficiency, reducing exhaust smoke, CO and HC emissions.

Properties

- ✓ Specially formulated to pass new emission test regulations.
- ✓ Reduces CO and HC emissions.
- ✓ Reduces exhaust smoke.
- ✓ Improves combustion, engine performance and fuel economy.
- ✓ Cleans injectors, restoring ideal injector spray pattern.
- ✓ Assists cleaning of the entire fuel system including catalytic converter and Gasoline Particulate Filter.

Applications

- ✓ For all petrol engines including indirect and direct injection and hybrid engines.
- ✓ Compatible with all petrol system components including catalytic converters and Gasoline Particulate Filters.
- ✓ For petrol and bio petrol up to E10.

Directions

- ✓ Add one bottle of 500 ml to the petrol fuel tank containing minimum of 30 litres of fuel.
- ✓ Drive at least 50 km on the motorway before taking the vehicle for an official emission test.
- ✓ Can be used as a curative treatment in the event of an emission failure.
- ✓ For best results, use every 3rd tank filling and use 150 km before MOT test.
- ✓ Results may vary due to service history, vehicle age and mileage.
